Consolidated Indoor Fitness Center, Building #8, NSA, Philadelphia, PA

This project combines three small fitness areas on the Naval Support Activity Philadelphia compound into one centrally located, more modern facility. New locker rooms, heads, shower areas and a multi-purpose court will be integrated with the existing indoor soccer/tennis court and the basketball court in building #8. Larger areas for cardiovascular and circuit training will be provided.

Contract Number: 01-D-0808, TO #0002
Repair Internal Duct Lining, Building #3, NSA, Philadelphia, PA

This project will repair and clean ductwork and air handlers in Building 3 to include: supply and return duct cleaning; installation of new filters in the air handlers; removal of existing diffuser filters; testing and balancing new terminal boxes; video inspection of ductwork after cleaning; and vacuuming the top of ceiling tiles. This effort addresses a long-standing environmental concern of dust and fibers from delaminated interior duct insulation that are blown throughout the facility.
